DIGITAL PERSONAL CAREER PORTFOLIO MAP

Directions with links available

STUDENT DIRECTIONS

Students are encouraged to work in groups of 2 or independently. Groups can assist each other to develop their own Digital Career map.

1.   Review the Career zone assessments and Job Zones/ clusters in their digital portfolio.

2.   Create a career collage, a personal career map using your choice of digital software/technology (Publisher, Canva) or use a basic Microsoft program.The Career collage should represent your chosen career.

3. Digital Career Map should include at least 5 of the following:
 A video link embedded into the poster
Visual pictures of someone doing tasks within the career
Include the vocabulary of the career
 The progression of the occupation/career choice
A description of credentials, certifications, and/or specialized training required
Prerequisites required from high school
A short list of activities that a person in that occupation would be doing on a daily basis. A list of qualities and skills needed for the job
Where the career is found in the world
Job outlook and average salary

4.   Google Classroom -Use digital hand out Student Quick Guide to Google Classroom PDF) to show how to get into google classroom - Career Planning. create your own portfolio folder with your name. Here is the link to Google Classroom: Career Planning
